We are seeking a highly creative self-motivated experiential/graphic designer to be a part of our studio in the Houston Heights. The candidate should have strong creative, conceptual, visual communication, and problem-solving skills. The candidate will assist in all phases of project design and development, including research and analysis, concept design, and design production/implementation. Projects range from branding, exhibit design, signage and wayfinding, interaction design (physical and digital), web and video/animation.

Required Experience

- Bachelor's degree in graphic design.
- 3+ years experience in graphic design, EGD, or related field.

Requirements and Skills

- Must have superior typography skills.
- Strong knowledge of and use of Adobe Creative Suite programs and ability to visualize in two and three dimensions is a must.
- Knowledge in 3D rendering skills in Sketch-up or similar.
- Understanding of architectural scales and drawings—able to read and interpret architectural and shop drawings a plus
- Collaborative designer with good communication skills that works well in an interdisciplinary, fast-paced environment, as well as ability to work autonomously.
- Strong written and verbal communication skills and experienced with client presentation skills and the ability to manage client expectations with clear communications and confident leadership.

Additional Notes

- Salary commensurate based on experience and ability level.
- This is a full-time, in-person position with health insurance.
